TDTB · LANES FLOW · ROUND 3

One timeline, carried through Set up, Plan and Commit

Built from Direction B (Lanes). One lane per source carries through every step: Set up shows what already claims time and lets you switch anchors and habits off; Plan shows where today's tasks would land; Commit places them. One example day runs through all screens (4:15 PM – 11:45 PM, 4hr 10min of tasks, 1h 25m over by default), and the totals update as you toggle in Play. The agenda list is the phone layout. No drawers anywhere.

1 Set up

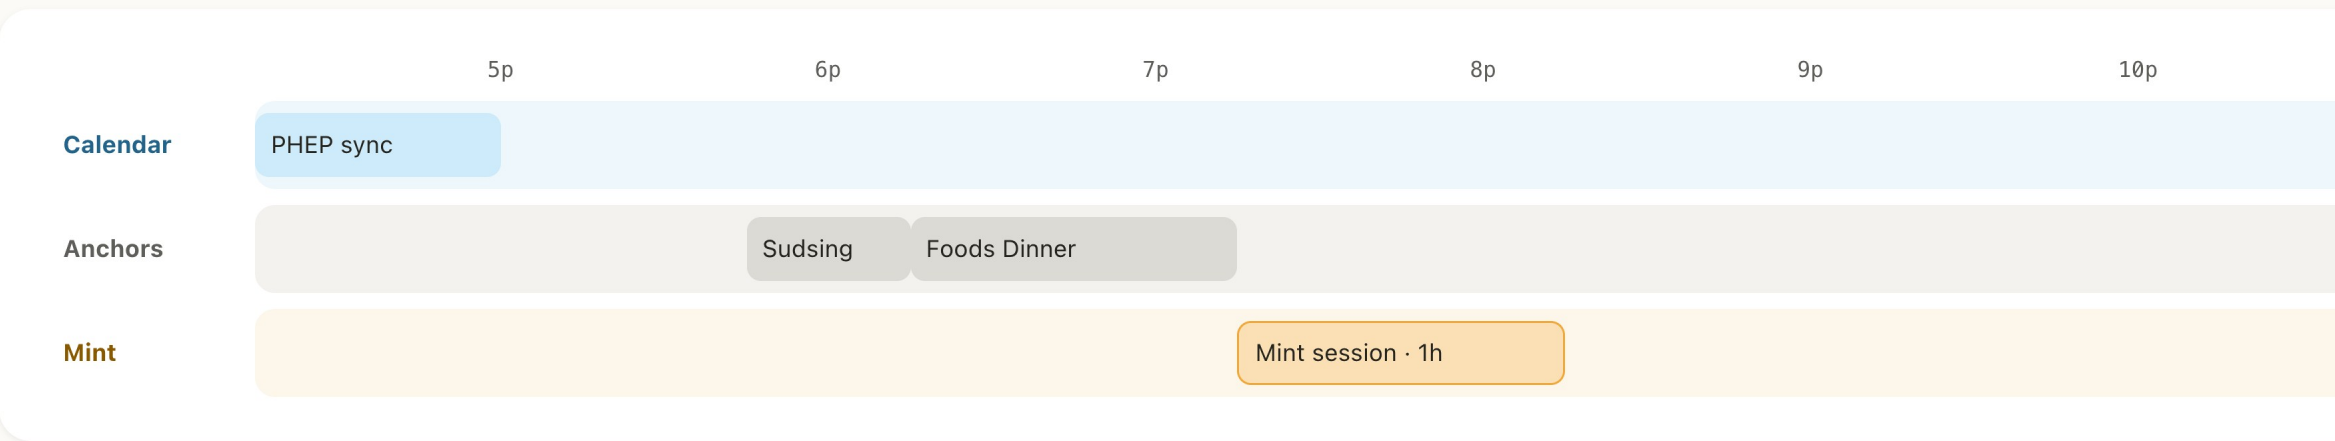

Anchor and habit toggles work in Play

Thu 29 Oct 4:15 PM – 11:45 PM

1 **Set up** — 2 Plan — 3 Commit

Shape your day

What already claims time today. Tap an anchor to switch it off for today; drag to move, drag its edge to resize.

Allotment 2h 45

Calendar **45m** · Work (Mint) **1h** · Anchors **2h 15m** · Habits **45m** · Free for tasks **2h 45m**

Habits **3 of 14** on · **45m**

Morning 0/7 · Afternoon 3/3 · Evening 0/2 · Anytime 0/2
